MEN OF PASSION

**Men today are only one step away, from gaining courage they desire.
All want to have power and own a large tower; but what about their passion and fire.**

**When looking around, there are few to be found, MEN who are leading and true.
But in a "jiff" that trend can shift, If Christ makes their heart brand new.**

**A new godly zeal can quickly heal, old Passivity and "just getting by."
It can be a trend where all the glory ascends, and the energy eliminates deep sighs.**

**Men can come home and stay off the phone, So their wives feel treasured and dear.
Full-of-energy dads replacing "lists of my bads" And a household that contains no fear.**

**So let's lead and be bold, no matter how old . . . Because the Savior we serve is able.
It's a great time to start with a repentant heart, remembering He started in a stable.**

**Passion is the tool that will turn a fool, Into a leader and a man.
So jump on ship with the *WORD* to equip, And begin by saying "I CAN!"**
